

Debit Card Scam

Calls from FVSBank? Not us!

FVSBank customers have reported receiving calls telling them that their MasterCard has been locked out. This is an automated call asking customers to enter in their MasterCard number, security code and expiration date to 'unlock' their MasterCard. **THIS IS A SCAM.**

The scam appears to be calling cell phone numbers in the area. The automated call does not identify itself as being from FVSBank but does say their MasterCard has been locked out. **THIS IS A SCAM**, not FVSBank. Do not give out any of your debit or credit card information.

If you have entered your debit card number, please contact FVSBank immediately.
